INTRODUCTION

Here at Red Manager, we have a process that we adhere to. No matter how big or small the project may be everyone is fully aware of what to do and how to do it. We know it works very well as otherwise we would all arrive at work, firstly chat about what was on TV the night before, what we're having for lunch/dinner and then we'd go home. Seriously though, using this process there is still lots of talk but it's beneficial to the project in hand, it ensures that we're focused, that the project doesn't lose momentum and we all achieve what we set out to.
